Alternative 5: **South Parallel Bridge**

Features:

- New four-lane parallel bridge to the south with a higher drawspan (30 feet) with fewer openings for inbound and outbound traffic.
- Ties back into existing US 50 in Ocean City and West Ocean City.
- Existing bridge retained and will provide a separate facility for pedestrians, bicyclists, and fishermen.
- St. Louis Avenue to be rerouted under bridges to continue connection.
- Includes retaining walls to reduce impacts.

Issues:

- Furthest from Skimmer Island Waterbird Colony.
- Clearance impacts to boaters using channel to access boat slips at Villas at Inlet Isle site.
- Off-season lane closures at either end of bridge due to construction.
- Total Cost = \$325-\$335 Million.
- Total Displacements = 6 homes and 4 businesses.
